

ioVote Documentation

Roadmap

The *ioVote* project is designed for future improvements and scalability. Below are planned enhancements:

1. Dash Integration for Visual Analytics

- Adding interactive charts for voting results.
- Displaying bar charts and pie charts for better insights.

2. Performance Improvements

- Optimizing database queries.
- Enhancing page load speed.

3. User Experience Upgrades

- Improved UI/UX for voting sessions.
- Dark mode toggle.

4. API Enhancements

- Expanding API for third-party integrations.
- Providing public endpoints for data access.

These enhancements will make *ioVote* more efficient and feature-rich.
